

Heritage Rose

Features & Options

Second only to Ultimate Rose in terms of timber authenticity, Heritage Rose is a classically styled sash window that delivers the convenience and all-round performance of modern uPVC.

With a 44mm midrail and welded joints, Heritage Rose features optional flat run-through horns, a deep bottom rail as standard and traditional chamfered astragal bars that replicate a traditional timber sash window look.

Heritage Rose is a fully traditional conservation-grade window that has been used in many conservation areas around the UK.
